RE: Letter of Commendation
Level Creek Raw Sewage Pump Station
Gwinnett County DWR

Dear Dana:

As we have come to closure on your contractual obligations associated with the above referenced project, I want to take this opportunity to say thank you for a job well done. Max Foote Construction Company, Inc. has shown notable character and integrity in your management and approach to this work throughout the life of this contract. Your offers for Owner effective value engineering, your professionalism as we managed through project difficulties, your perseverance and focus through the vagaries of contract language to get the right installation, and most importantly the "end in mind" personnel you placed on the job, all reflect your companies effective approach to this project.

Therefore, I offer to you this commendation letter and I hope that we can work together on some of the many projects that GCDWR will need to build in the upcoming years. Should you or anyone you pass this letter along to have any questions or require any additional information, please feel free to have them contact me directly at 678-376-6953.

Sincerely,
GWINNETT COUNTY DEPARTMENT OF WATER RESOURCES

Richard S. Schoeck, P.E.
Division Director of Engineering & Construction
